04/02/2000

Priority date (day/month/year)

12/03/1999

Applicant

SIR INDUSTRIALE S.P.A. et al.

1. The applicant is hereby notified that this International Preliminary Examining Authority transmits herewith the international preliminary examination report and its annexes, if any, established on the international application.
2. A copy of the report and its annexes, if any, is being transmitted to the International Bureau for communication to all the elected Offices.
3. Where required by any of the elected Offices, the International Bureau will prepare an English translation of the report (but not of any annexes) and will transmit such translation to those Offices.

4. REMINDER

The applicant must enter the national phase before each elected Office by performing certain acts (filing translations and paying national fees) within 30 months from the priority date (or later in some Offices) (Article 39(1)) (see also the reminder sent by the International Bureau with Form PCT/IB/301).

Where a translation of the international application must be furnished to an elected Office, that translation must contain a translation of any annexes to the international preliminary examination report. It is the applicant's responsibility to prepare and furnish such translation directly to each elected Office concerned.

For further details on the applicable time limits and requirements of the elected Offices, see Volume II of the PCT Applicant's Guide.

Re Item V

Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Reference is made to the following documents:

D1 = WO-A-9403545

D2 = "Benzamide, 4-(1,1,dimethyl)-N,N-bis(2-hydroxyethyl)"

CHEMLIST COPYRIGHT 2000 ACS, XP002138316 AN 39963

On NDSL Canada Gazette, Part I January 31, 1998

- 2.1. Document D1, which is considered to represent the most relevant state of the art, discloses (page 4, line 2 to page 5, line 13 and claims 1-3 and 10) a powder coating composition containing a carboxylated polyester resin with free carboxy groups and a crosslinking mixture, said mixture comprises at least one compound with a beta-hydroxyalkylamide functionality of 4 and at least one with a functionality of 2 and the weight ratio between the first compound to the second compound is from 90:10 and 10:90.
Consequently, the mean beta-hydroxyalkylamide functionality defined in claims 2 is the same as disclosed in D1.
- 2.2. Therefore, the subject-matter of claims 1-3, 7-16 and 18 lacks novelty in view of D1.
- 2.3. The subject-matter of claim 4 differs from the disclosure of D1 in that a benzamide is used as a crosslinking agent instead of an acetamide.
- 2.4. The subject-matter of claim 19 differs from the disclosure of D1 in that a t-butyl substituted phenyl group is present in the beta-hydroxyalkylamide compound instead of a methyl group.
- 3.1. The submitted examples show that the replacement of the acetamide of

**INTERNATIONAL PRELIMINARY
EXAMINATION REPORT - SEPARATE SHEET**

International application No. PCT/EP00/00902

D1 by the benzamide of the application in the crosslinking mixture having a mean functionality of 3 used in the process for the preparation of powder paints leads to a better aesthetic appearance.

- 3.2. Therefore, the objective technical problem solved by the aforementioned distinguishing feature is to provide a powder paint having a better aesthetic appearance.
- 3.3. The documents of file do not suggest said effect and thus the subject-matter of claims 4 and 19 as well as of claim 5 and 6 which are dependent on claim 4 and of claim 17 which defines the use of said benzamide compound in the preparation of thermosetting powder paints fulfills the requirements of Article 33(3) PCT.
4. For all claims (1-19) industrial applicability is acknowledged.

(54) Title: MIXTURES OF β -HYDROXYALKYL AMIDES AND THEIR USE AS CROSS-LINKING AGENTS FOR THE PREPARATION OF POWDER PAINTS (57) Abstract Described herein are mixtures of β -hydroxyalkyl amides, particularly suitable for being used as cross-linking agents in the field of powder paints, and more in particular as cross-linking agents for painting compositions in which the binding mixture consists of polyester resins having free carboxyl groups. Also described are powder paints that contain the said cross-linking mixtures, and the process for their preparation.

INTERNATIONAL PRELIMINARY EXAMINATION REPORT

International application No. PCT/EP00/00902

I. Basis of the report

1. With regard to the **elements** of the international application (*Replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexed to this report since they do not contain amendments (Rules 70.16 and 70.17)*):

Description, pages:

1-20 as originally filed

Claims, No.:

1-19 as originally filed

Drawings, sheets:

1/5-5/5 as originally filed

2. With regard to the **language**, all the elements marked above were available or furnished to this Authority in the language in which the international application was filed, unless otherwise indicated under this item.

These elements were available or furnished to this Authority in the following language: , which is:

- ☐ the language of a translation furnished for the purposes of the international search (under Rule 23.1(b)).
- ☐ the language of publication of the international application (under Rule 48.3(b)).
- ☐ the language of a translation furnished for the purposes of international preliminary examination (under Rule 55.2 and/or 55.3).

3. With regard to any **nucleotide and/or amino acid sequence** disclosed in the international application, the international preliminary examination was carried out on the basis of the sequence listing:

- ☐ contained in the international application in written form.
- ☐ filed together with the international application in computer readable form.
- ☐ furnished subsequently to this Authority in written form.
- ☐ furnished subsequently to this Authority in computer readable form.
- ☐ The statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.
- ☐ The statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.

4. The amendments have resulted in the cancellation of:

- ☐ the description, pages:
- ☐ the claims, Nos.:

INTERNATIONAL COOPERATION TREATY

PCT

INTERNATIONAL SEARCH REPORT

(PCT Article 18 and Rules 43 and 44)

Applicant's or agent's file reference 1774PTWO	FOR FURTHER ACTION		see Notification of Transmittal of International Search Report (Form PCT/ISA/220) as well as, where applicable, item 5 below.
International application No. PCT/EP 00/ 00902	International filing date (day/month/year) 04/02/2000	(Earliest) Priority Date (day/month/year) 12/03/1999	
Applicant SIR INDUSTRIALE S.P.A. et al.			

This International Search Report has been prepared by this International Searching Authority and is transmitted to the applicant according to Article 18. A copy is being transmitted to the International Bureau.

This International Search Report consists of a total of 2 sheets.

It is also accompanied by a copy of each prior art document cited in this report.

1. Basis of the report

- a. With regard to the **language**, the international search was carried out on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item.

the international search was carried out on the basis of a translation of the international application furnished to this Authority (Rule 23.1(b)).

- b. With regard to any **nucleotide and/or amino acid sequence** disclosed in the international application, the international search was carried out on the basis of the sequence listing :

contained in the international application in written form.

filed together with the international application in computer readable form.

furnished subsequently to this Authority in written form.

furnished subsequently to this Authority in computer readable form.

the statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.

the statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished

2. ☐ **Certain claims were found unsearchable** (See Box I).

3. ☐ **Unity of Invention is lacking** (see Box II).

4. With regard to the **title**,

the text is approved as submitted by the applicant.

the text has been established by this Authority to read as follows:

5. With regard to the **abstract**,

the text is approved as submitted by the applicant.

the text has been established, according to Rule 38.2(b), by this Authority as it appears in Box III. The applicant may, within one month from the date of mailing of this international search report, submit comments to this Authority.

6. The figure of the **drawings** to be published with the abstract is Figure No.

as suggested by the applicant.

because the applicant failed to suggest a figure.

because this figure better characterizes the invention.

None of the figures.
